

air cooled cooling system H Air Cooler Condenser with Good compressor walk in cooler

Basic Information

Brand Name: DamaiModel Number: DM-HNH

 Minimum Order Quantity:

• Price: \$200~\$100000

Packaging Details: Wooden CaseDelivery Time: 15 Work Days

• Payment Terms: T/T

• Supply Ability: 1000000pcs/year

Product Specification

• Receiver Drier Included: Yes

• Tube Type: Smooth, Grooved

• Airflow: Other

Air Flow: 50-70 CFM
Power Supply: 220V/380V
Power Source: Electric

Number Of Fans: 2-6Fan Motor Power: 500W

• Highlight: H Air Cooler Condenser,

Good compressor air cooled condenser, walk in cooler air cooled condenser

Product Description:

Air Cooled Condenser is a type of heat exchanger that is used in conjunction with cooling equipment. There are three main types available: H, V, and W. The H type is designed for side blowing, while the V and H types are for roof blowing.

This condenser features a well-thought-out structure and high interchangeability, making it compatible with various types of compressors. It comes with two kinds of fins: window fin and honeycomb fin. These fins are designed to cater to the diverse requirements of different customers.

Applications:

Applications of Type H air cooling condenser:

- 1. **Refrigeration Industry** Ideal for cold storage facilities, food processing plants, and supermarket refrigeration systems, ensuring stable and energy-efficient cooling performance.
- 2. **Industrial Cooling** Applied in manufacturing plants, chemical processing, and power generation industries where large-scale cooling is required for machinery, production lines, and equipment.
- 3. **Data Centers & Server Rooms** Helps maintain optimal temperatures in data centers, preventing overheating of servers and ensuring stable operation of IT infrastructure.
- 4. **Medical & Pharmaceutical Industry** Used in pharmaceutical factories and hospitals for precision cooling in medical equipment, laboratories, and vaccine storage facilities.

Support and Services:

The Product Technical Support and Services for the Air Cooler Condenser include:

- Installation guidance and support
- Troubleshooting assistance for any operational issues
- Maintenance recommendations and tips
- Warranty information and claims process
- Product upgrade options and compatibility inquiries

Packing and Shipping:

Product Packaging and Shipping for Air Cooler Condenser:

The Air Cooler Condenser is carefully packaged to ensure safe delivery to our customers. Each unit is securely wrapped in protective materials to prevent any damage during shipping.

Shipping Method: We use reliable carriers to ship the Air Cooler Condenser to your location. You will receive a tracking number once your order has been dispatched.

Delivery Time: The estimated delivery time for the Air Cooler Condenser is 3-5 business days, depending on your location.
