Refreshing Air with DaMai Air-Cooled Air Cooler

EVAPORATOR

DaMai Air-Cooled Air Cooler

a perfect blend of performance, elegance, and innovation. Designed to deliver a powerful cooling experience with energy efficiency in mind, this advanced air cooler harnesses the natural force of wind and water to provide a refreshing breeze that revitalizes your space.

With its sleek design and whisper-quiet operation, the DaMai cooler is ideal for homes, offices, and industrial environments alike. Engineered with cutting-edge air-cooling technology, it ensures fast, even air distribution while maintaining eco-friendly performance and low operational costs.

Let DaMai transform your environment into a haven of comfort and freshness — naturally cool, effortlessly powerful.

Product Description:

Engineered for high-efficiency cooling, this dual-fan air-cooled evaporator is designed to provide quick and even temperature distribution, making it perfect for medium to large cold storage rooms. The evaporator is equipped with sturdy aluminum fins, copper tubing, and a corrosion-resistant coating, ensuring durability and consistent performance over time. Its twin high-speed axial fans promote increased airflow, which enhances heat exchange efficiency and lowers energy usage. Easy to install and maintain, this evaporator is well-suited for a variety of freezing and refrigeration needs.

Features:

High Efficiency: Dual high-performance axial fans guarantee quick and uniform air distribution.

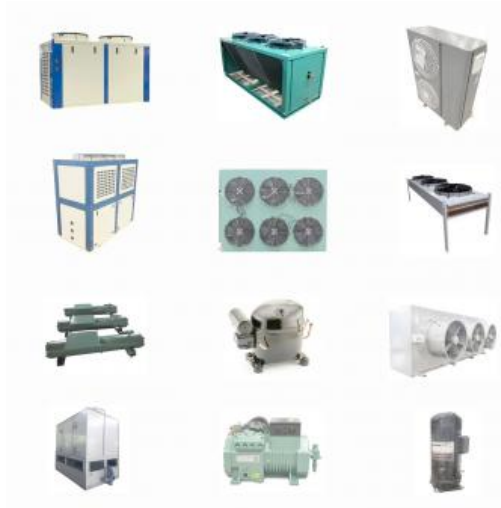

Durable Build: Copper tubes featuring aluminum fins and an anti-corrosion coating extend the overall lifespan of the system.

Energy Saving: The optimized heat exchange design significantly decreases power consumption.

Low Noise: The quiet operation is ideal for environments such as food storage and processing where noise level is critical.

Easy Maintenance: Fan guards that can be easily removed and accessible components make servicing a breeze.

Wide Application: This unit is suitable for cold rooms ranging from -5°C to -25°C, catering to various industries including food, pharmaceuticals, and logistics.
