EVAPORATOR

DaMai Air-Cooled Air Cooler

a perfect blend of performance, elegance, and innovation. Designed to deliver a powerful cooling experience with energy efficiency in mind, this advanced air cooler harnesses the natural force of wind and water to provide a refreshing breeze that revitalizes your space.

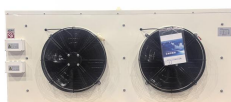

With its sleek design and whisper-quiet operation, the DaMai cooler is ideal for homes, offices, and industrial environments alike. Engineered with cutting-edge air-cooling technology, it ensures fast, even air distribution while maintaining eco-friendly performance and low operational costs.

Let DaMai transform your environment into a haven of comfort and freshness — naturally cool, effortlessly powerful.

Product Description:

Engineered for high-efficiency cooling, this dual-fan air-cooled evaporator delivers rapid and uniform temperature distribution, which is perfect for medium to large cold storage rooms. It features durable aluminum fins, copper tubing, and corrosion-resistant coating, ensuring long-lasting performance and reliability. The twin high-speed axial fans maximize airflow, improving heat exchange and reducing energy consumption.

This evaporator is easy to install and maintain, making it ideal for a variety of freezing and refrigeration applications. Whether you need to store perishable goods or maintain a specific temperature in a commercial setting, this evaporator is designed to meet your needs. The combination of efficient cooling technology and durable materials makes it a reliable choice for medium to large cold storage facilities.

Features:

High Efficiency:

Dual high-performance axial fans ensure fast and even air distribution.

Durable Build:

Copper tubes with aluminum fins and anti-corrosion coating for extended lifespan.

Energy Saving:

Optimized heat exchange design reduces power consumption.

Low Noise:

Quiet operation suitable for food storage and processing environments.

Easy Maintenance:

Removable fan guards and accessible components simplify servicing.

Wide Application:

Suitable for -5°C to -25°C cold rooms, including food, pharma, and logistics.
