Product Description

Experience the Power of Pure
Refreshing Air with DaMai Air-Cooled Air Cooler

EVAPORATOR

DaMai Air-Cooled Air Cooler

a perfect blend of performance, elegance, and innovation. Designed to deliver a powerful cooling experience with energy efficiency in mind, this advanced air cooler harnesses the natural force of wind and water to provide a refreshing breeze that revitalizes your space.

With its sleek design and whisper-quiet operation, the DaMai cooler is ideal for homes, offices, and industrial environments alike. Engineered with cutting-edge air-cooling technology, it ensures fast, even air distribution while maintaining eco-friendly performance and low operational costs.

Let DaMai transform your environment into a haven of comfort and freshness — naturally cool, effortlessly powerful.

Product Description:

Engineered for high-efficiency cooling, the dual-fan air-cooled evaporator is designed to deliver rapid and uniform temperature distribution, making it ideal for medium to large cold storage rooms.

With durable aluminum fins, copper tubing, and corrosion-resistant coating, this evaporator guarantees long-lasting performance and reliability. The twin high-speed axial fans are specifically designed to maximize airflow, enhance heat exchange, and reduce overall energy consumption.

Easy to install and maintain, this evaporator is perfectly suited for a variety of freezing and refrigeration applications.

Features:

High Efficiency: Dual high-performance axial fans guarantee rapid and uniform air circulation.

Durable Build: Utilizing copper tubes with aluminum fins and protective anti-corrosion coating, the unit boasts an extended lifespan.

Energy Saving: With an optimized heat exchange design that diminishes power usage, this system is eco-friendly and cost-effective.

Low Noise: Operating quietly, this system is perfect for environments involving food storage and processing.

Easy Maintenance: Featuring removable fan guards and easily accessible components, servicing and upkeep are simplified.

Wide Application: Designed for cold rooms with temperatures ranging from -5°C to -25°C, this system is ideal for food, pharmaceutical, and logistics settings.
