Product Description:

Zhejiang Damai Cold Chain Equipment Co., Ltd. is pleased to introduce its line of high-efficiency air coolers (evaporators), meticulously crafted to meet the stringent requirements of contemporary cold storage and refrigeration systems. Our evaporators feature an innovative air-cooled design and are furnished with robust axial fans, guaranteeing swift and consistent air circulation throughout the cold storage facility.

Features:

High Performance: Optimized coil design for superior heat exchange efficiency and fast temperature reduction.

Reliable Operation: Equipped with durable axial flow fans for low-noise, high-airflow performance.

Anti-Corrosion Design: The casing is made from high-quality aluminum or coated steel, resistant to corrosion and suitable for humid or low-temperature environments.

Easy Maintenance: Compact structure with convenient access to internal components, making routine maintenance simple and efficient.

Energy Efficient: Designed for low power consumption while maintaining stable and reliable cooling performance.

Applications:

Cold storage facilities play a crucial role in the storage and preservation of fruits, vegetables, and meat. These warehouses are equipped with controlled temperature and humidity levels to extend the shelf life of perishable goods. Another essential part of the cold storage industry is frozen food processing and blast freezing chambers. These specialized units are designed to rapidly freeze food products to maintain their quality and freshness for extended periods. In addition to food storage, cold rooms are also utilized in pharmaceutical and medical industries. These facilities are specially designed to store vaccines, medicines, and other temperature-sensitive products at precise temperatures to ensure their efficacy. Cold storage solutions are not exclusive to the food and medical sectors. They are also widely used in supermarkets, logistics centers, and food distribution facilities to maintain the quality of products and ensure efficient supply chain management.
