## Product Description:

Zhejiang Damai Cold Chain Equipment Co., Ltd. is delighted to introduce its range of high-efficiency air coolers (evaporators) specially crafted to cater to the exacting requirements of contemporary cold storage and refrigeration systems.

These evaporators are engineered with an air-cooled design and are furnished with robust axial fans that guarantee swift and consistent air circulation across the cold chamber.

## Features:

**High Performance:** Optimized coil design for superior heat exchange efficiency and fast temperature reduction.

**Reliable Operation:** Equipped with durable axial flow fans for low-noise, high-airflow performance.

**Anti-Corrosion Design:** The casing is made from high-quality aluminum or coated steel, resistant to corrosion and suitable for humid or low-temperature environments.

**Easy Maintenance:** Compact structure with convenient access to internal components, making routine maintenance simple and efficient.

**Energy Efficient:** Designed for low power consumption while maintaining stable and reliable cooling performance.
