## Product Description:

Zhejiang Damai Cold Chain Equipment Co., Ltd. is pleased to introduce its efficient air coolers (evaporators) that are specifically crafted to cater to the demanding requirements of contemporary cold storage and refrigeration facilities.

Our evaporators are engineered with an innovative air-cooled configuration and are outfitted with robust axial fans, guaranteeing a swift and consistent circulation of air throughout the cold storage space.

## Features:

**High Performance:** Optimized coil design for superior heat exchange efficiency and fast temperature reduction.

**Reliable Operation:** Equipped with durable axial flow fans for low-noise, high-airflow performance.

**Anti-Corrosion Design:** The casing is made from high-quality aluminum or coated steel, resistant to corrosion and suitable for humid or low-temperature environments.

**Easy Maintenance:** Compact structure with convenient access to internal components, making routine maintenance simple and efficient.

**Energy Efficient:** Designed for low power consumption while maintaining stable and reliable cooling performance.

# APPLICATION

## Applications:

Cold storage warehouses are essential for storing fruits, vegetables, and meat at optimal temperatures to maintain freshness and extend shelf life. These facilities also include frozen food processing areas and blast freezing chambers, which help in preserving the quality of food products by rapidly reducing their temperature. Furthermore, there are specialized cold rooms for pharmaceutical and medical purposes, ensuring that sensitive products are stored under controlled conditions to maintain their efficacy. In addition to food and medical industries, cold storage solutions are also utilized in supermarkets, logistics centers, and food distribution facilities to store and distribute perishable goods efficiently.
