Product Description

Product Description:

Zhejiang Damai Cold Chain Equipment Co., Ltd. is pleased to introduce its high-efficiency air coolers (evaporators), meticulously crafted to fulfill the stringent requirements of contemporary cold storage and refrigeration systems. Our evaporators feature an air-cooled design, incorporating robust axial fans that guarantee quick and even air circulation throughout the cold room.

Features:

High Performance: Optimized coil design for superior heat exchange efficiency and fast temperature reduction.

Reliable Operation: Equipped with durable axial flow fans for low-noise, high-airflow performance.

Anti-Corrosion Design: The casing is made from high-quality aluminum or coated steel, resistant to corrosion and suitable for humid or low-temperature environments.

Easy Maintenance: Compact structure with convenient access to internal components, making routine maintenance simple and efficient.

Energy Efficient: Designed for low power consumption while maintaining stable and reliable cooling performance.
