Product Description

DM-EVAPORATOR

DM Air-Cooled Air Cooler

a perfect blend of performance, elegance, and innovation. Designed to deliver a powerful cooling experience with energy efficiency in mind, this advanced air cooler harnesses the natural force of wind and water to provide a refreshing breeze that revitalizes your space. With its sleek design and whisper-quiet operation, the DM Air-Cooled Air Cooler is ideal for homes, offices, and industrial environments alike. Engineered with cutting-edge air-cooling technology, it ensures fast and even air distribution while maintaining eco-friendly performance and low operational costs.

Product Description:

Zhejiang Damaï Cold Chain Equipment Co., Ltd. is a company that focuses on producing top-quality air-cooled unit coolers that are specifically tailored for cold storage purposes.

Our unit coolers are engineered with axial fans, high-efficiency aluminum fins, and copper tubes to ensure fast and even distribution of air throughout the storage space. Features:

Fast cooling is achieved through the use of optimized airflow, ensuring efficient and effective temperature control.

A corrosion-resistant coating is applied to enhance durability, making the cooling system long-lasting and reliable.

The axial fans used in this system are not only low noise but also energy-efficient, contributing to a quieter and more environmentally friendly operation.

Installing and maintaining the system is easy, saving time and effort for users.

This cooling system is compatible with a variety of refrigerants, offering flexibility and convenience for different applications.
