Product Description:

Zhejiang Damaï Cold Chain Equipment Co., Ltd. is a company that specializes in the production of top-quality air-cooled unit coolers specifically designed for use in cold storage settings. Our unit coolers are equipped with axial fans, high-efficiency aluminum fins, and copper tubes to ensure quick and even distribution of air.

The axial fans incorporated into our unit coolers help in maintaining a consistent and reliable air circulation within the cold storage space. Additionally, the high-efficiency aluminum fins ensure improved heat transfer, while the copper tubes contribute to the rapid cooling process. This combination of features results in efficient and uniform air distribution throughout the storage environment.

Features:

Fast cooling is achieved through the use of optimized airflow, ensuring efficient and effective performance.

The durability of the system is enhanced by a corrosion-resistant coating, providing protection against environmental elements.

Low noise levels and energy-efficient operation are made possible by the use of axial fans, ensuring a quiet and economical cooling solution.

Installation and maintenance of the system are made easy, simplifying the setup process and ongoing care.

The system is designed to be compatible with a range of refrigerants, offering flexibility for different operating requirements.
