Product Description

DM-EVAPORATOR

DM Air-Cooled Air Cooler

a perfect blend of performance, elegance, and innovation. Designed to deliver a powerful cooling experience with energy efficiency in mind, this advanced air cooler harnesses the natural force of wind and water to provide a refreshing breeze that revitalizes your space. With its sleek design and whisper-quiet operation, the DM Air-Cooled Air Cooler is ideal for homes, offices, and industrial environments alike. Engineered with cutting-edge air-cooling technology, it ensures fast even air distribution while maintaining eco-friendly performance and low operational costs.

Product Description:

Zhejiang Damai Cold Chain Equipment Co., Ltd. is a company that focuses on the production of high-performance air-cooled unit coolers suitable for use in cold storage settings. Our unit coolers are equipped with axial fans, high-efficiency aluminum fins, and copper tubes to ensure fast and consistent air distribution.

The company's expertise lies in developing unit coolers that are specifically designed for various cold storage applications. The use of axial fans in our products helps to improve airflow efficiency, while the high-quality aluminum fins and copper tubes contribute to the rapid and uniform distribution of air throughout the storage space.

Features:

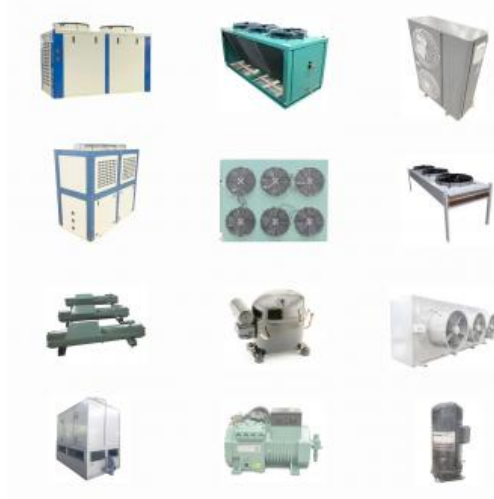

Fast cooling can be achieved with optimized airflow to enhance the performance of the system.

The durability of the equipment is ensured with a corrosion-resistant coating that protects it from external elements.

Low noise levels and energy efficiency are maintained with the use of axial fans for effective ventilation.

The equipment is designed for easy installation and maintenance, making it convenient for users to set up and operate.

It is also compatible with a variety of refrigerants, providing flexibility and adaptability to different cooling requirements.
