Experience the Power of Pure Refreshing Air with DaMai Air-Cooled Air Cooler

M DaMai Air-Cooled Air Cooler

a perfect blend of performance, elegance, and innovation. Designed to deliver a powerful cooling experience with energy efficiency in mind, this advanced air cooler harnesses the natural force of wind and water to provide a refreshing breeze that revitalizes your space. With its sleek design and whisper-quiet operation, the DaMai cooler is ideal for homes, offices, and industrial environments alike. Engineered with cutting-edge air-cooling technology, it ensures fast, even air distribution while maintaining eco-friendly performance and low operational costs.

Let DaMai transform your environment into a haven of comfort and freshness — naturally cool, effortlessly powerful.

Product Description:

Our air cooler, also referred to as an air-cooled evaporator, plays a crucial role in cold storage systems. Its main function is to effectively extract heat from the cold room and uphold a stable low temperature. Constructed with top-notch copper tubes and aluminum fins, our air coolers deliver outstanding cooling capabilities, dependability, and energy efficiency.

Features:

High Efficiency: Optimized coil design with excellent heat exchange efficiency.

Durable Structure: Anti-corrosion aluminum fins and galvanized or stainless steel casing for long service life.

Low Noise Operation: Quiet axial fans ensure smooth airflow with minimal noise.

Easy Installation: Compact design suitable for ceiling mounting; quick and easy to install.

Wide Temperature Range: Suitable for both medium and low temperature cold rooms (-5°C to -25°C).

Technical Parameters:

|--|

Transport Package	Transport Package
Hs Code	8418991000
Col	Copper Fin Type Heat Exchanger
Housing Material	Iron/galvanized Steel/stainless Steel
Area	5 - 410m2
Dimensions	Custom
Expansion Valve	Danfoss
Category	Evaporator
Cooling Type	Counter Flow

Applications:

Fresh Food Storage

Fresh food storage involves the proper handling and storage of various items such as fruits, vegetables, meat, and seafood. The careful maintenance of temperature and humidity levels is essential to prevent spoilage and maintain the quality of the produce.

Frozen Food Warehouses

Frozen food warehouses are important for storing perishable items at very low temperatures to maintain their freshness over extended periods of time. Proper insulation and refrigeration systems are crucial in these facilities to ensure the integrity of the frozen products.

Pharmaceutical Cold Rooms

Pharmaceutical cold rooms are specialized storage units designed to keep medications and other sensitive pharmaceutical products at specific low temperatures. These rooms are crucial for ensuring the efficacy and safety of pharmaceuticals.

Supermarket Cold Display Rooms

Supermarket cold display rooms are used to showcase chilled and frozen products for customers. These rooms are equipped with display cases and cooling systems to keep products at optimal temperatures while also attracting consumers with visually appealing displays.

Food Processing and Preservation

Food processing and preservation techniques are essential in ensuring food safety and extending the shelf life of perishable items. Proper refrigeration methods play a key role in food processing to maintain the quality and freshness of food products.

Industrial Refrigeration Systems

Industrial refrigeration systems are large-scale cooling systems used in various industries to support processes such as food production, cold storage, and manufacturing. These systems are designed to meet specific temperature requirements and ensure efficient cooling operations.

Customization:

Product Customization Services for the Cold Room Evaporator:

Brand Name: DM Model Number: DM-COOLER-DD/DJ/DL

Place Of Origin: China Certification: CE ISO Minimum Order Quantity: 1 Price: 1000-100000

Packaging Details: Customization

Delivery Time: 20 days Payment Terms: TT, L/C Supply Ability: 300000/Year Defrost: Hot Gas, Electric, Water Category: Evaporator Customized: Acceptable

Fan: Weiguang Area: 5 - 410m2

Cold Room Air Cooler, Air Cooled Evaporator, Cold Room Evaporators

Support and Services:

The Cold Room Evaporator product comes with comprehensive Product Technical Support and Services to assist customers in ensuring optimal performance and functionality. Our dedicated technical support team is available to provide guidance on installation, troubleshooting, and maintenance of the evaporator unit.

Customers can also benefit from our range of service offerings, including scheduled maintenance programs, on-site repair services, and warranty support. Our goal is to help customers maximize the efficiency and lifespan of their Cold Room Evaporator, ensuring reliable operation and minimizing downtime.

FAQ:

- Q: What is the brand name of the Cold Room Evaporator product?
- A: The brand name is DM.
- Q: What is the model number of the Cold Room Evaporator product?
- A: The model number is DM-COOLER-DD/DJ/DL.
- Q: Where is the Cold Room Evaporator product manufactured?
- A: The product is manufactured in China.
- Q: What certifications does the Cold Room Evaporator product have?
- A: The product is CE and ISO certified.
- Q: What is the minimum order quantity for the Cold Room Evaporator product?
- A: The minimum order quantity is 1.
