

Aluminum Fin Material Evaporation Air Cooler for Electric Cooling Performance and Efficiency

Basic Information

- Brand Name:
- Certification: CE ISO

DM

1

TT,L/C

- Model Number: DM-COOLER-DD/DJ/DL
- Minimum Order
 Quantity:
- Price: 1000-100000
- Packaging Details: Customization
- Delivery Time: 20day
- Payment Terms:
- Supply Ability: 300000/Year

Product Specification

• Fin Material:	Aluminum
Defrost:	Electrical Type
Standard Power Supply: 380V-3phase-50hz	
Coil Type:	Copper Tube And Aluminum Fin
Power Source:	Electric
Capcity:	38.3KW(R404A)
Key Words:	Air Cooler
Casing:	Steel Plate With Plastic Spray
Highlight:	Electric Cooling Performance Evaporation Air Cooler , Electric Cooling Performance Air Cooler

Experience the Power of Pure Refreshing Air with DaMai Air-Cooled Air Cooler

EVAPORATOR

DaMai Air-Cooled Air Cooler

a perfect blend of performance, elegance, and innovation. Designed to deliver a powerful cooling experience with energy efficiency in mind, this advanced air cooler harnesses the natural force of wind and water to provide a refreshing breeze that revitalizes your space. With its sleek design and whisper-quiet operation, the DaMai cooler is ideal for homes, offices, and industrial environments alike. Engineered with cutting-edge air-cooling technology, it ensures fast, even air distribution while maintaining eco-friendly performance and low operational costs.

Let DaMai transform your environment into a haven of comfort and freshness — naturally cool, effortlessly powerful.

Product Description:

Zhejiang Damae Cold Chain Equipment Co., Ltd. is pleased to present a premium selection of air coolers, also referred to as air-cooled evaporators, tailored for use in cold storage settings. These air coolers are meticulously crafted for longevity and efficiency, offering seamless heat transfer and dependable temperature management to safeguard perishable items effectively. Engineered with precision and constructed with durability in mind, our air coolers are ideal for maintaining the freshness and quality of goods stored in cold storage facilities. By delivering effective heat exchange and precise temperature control, they ensure the optimal preservation and integrity of perishable products.

Features:

High-Efficiency Heat Exchange: Utilizes advanced aluminum finned copper tubes for fast and uniform cooling performance.
 Low Noise Operation: Equipped with high-quality, low-noise axial fans to ensure quiet and stable operation.
 Corrosion-Resistant Structure: Galvanized or coated casing options for enhanced durability in humid or low-temperature environments.
 Easy Maintenance: Detachable side panels and user-friendly design for convenient cleaning and servicing.
 Flexible Installation: Suitable for various ceiling-mounted configurations to maximize cold room space.

Standard Power Supply	380V-3phase-50hz
Power	All Available
Fin Material	Aluminum
Key Words	Air Cooler
Fin Color	White
Fan Quantity	2
Coil Type	Copper Tube And Aluminum Fin
Capacity	38.3KW(R404A)
Casing	Steel Plate With Plastic Spray
Defrost	Electrical Type

Applications:

Cold storage warehouses are facilities designed to store goods at lower temperatures to maintain their quality and extend their shelf life. These warehouses are equipped with specialized refrigeration systems to create a controlled environment that helps preserve a wide range of products, from food items to pharmaceuticals.

Walk-in freezers and chillers provide additional storage space within the cold storage warehouses for storing perishable items that require even lower temperatures. Freezers maintain below-freezing temperatures, while chillers keep products at consistent cool temperatures above freezing, offering versatile storage solutions for various goods.

Food processing and preservation facilities are integral components of the cold storage industry, where products are handled, processed, and stored under strict temperature-controlled conditions to ensure food safety and quality. These facilities play a crucial role in the supply chain of fresh and processed food products.

Pharmaceutical storage rooms are designed to meet specific temperature and humidity requirements for storing drugs, vaccines, and other medical products. Maintaining precise storage conditions is essential to preserve the efficacy and safety of pharmaceuticals, making these specialized rooms crucial in the pharmaceutical industry.

Fruit, vegetable, meat, and seafood storage are common applications of cold storage warehouses, where different types of perishable goods are stored at appropriate temperatures to prevent spoilage and maintain their freshness. Proper storage conditions play a vital role in preserving the quality and extending the shelf life of fruits, vegetables, meat, and seafood before they reach consumers.

Customization:

Product Customization Services for Cold Room Evaporators: Brand Name: DM

Model Number: DM-COOLER-DD/DJ/DL Place Of Origin: China Certification: CE ISO Minimum Order Quantity: 1 Price: \$1000-\$100000 Packaging Details: Customization Delivery Time: 20 days Payment Terms: TT, L/C Supply Ability: 300000/Year Power Source: Electric Feature: Not Easy To Scale Capacity: 38.3KW (R404A) Temperature: High, Medium, Low Temperature Fin Material: Aluminum

Support and Services:

Our Product Technical Support and Services team for the Cold Room Evaporator product is dedicated to providing comprehensive ----- assistance with installation, maintenance, troubleshooting, and any other technical queries you may have. Our experts are well-versed in the functionality and specifications of the Cold Room Evaporator, ensuring that you receive the necessary support to maximize the efficiency and performance of your equipment.

FAQ:

- Q: What is the brand name of the Cold Room Evaporator?
- A: The brand name is DM.
- Q: What is the model number of the Cold Room Evaporator?
- A: The model number is DM-COOLER-DD/DJ/DL.
- Q: Where is the Cold Room Evaporator manufactured?
- A: The Cold Room Evaporator is manufactured in China.
- Q: What certifications does the Cold Room Evaporator have?
- A: The Cold Room Evaporator is certified with CE and ISO.
- Q: What is the minimum order quantity for the Cold Room Evaporator?
- A: The minimum order quantity is 1.
