

Optimize Cooling with High Heat Transfer Efficiency Evaporation Air Cooler and Copper Tube Material

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Brand Name: DM
- Certification: CE ISO
- Model Number: DM-COOLER-DD/DJ/DL
- Minimum Order Quantity: 1
- Price: 1000-100000
- Packaging Details: Customization
- Delivery Time: 20day
- Payment Terms: TT,L/C
- Supply Ability: 300000/Year

Product Specification

- Material Of Fin: Material Of Fin
- Noise Level: Low
- Key Words: Air Cooler
- Capacity: 2.4KW
- Expansion Valve: Danfoss
- Product Type: Air Cooler
- Fan Qty: 1~4
- Series: DD/DJ/DL
- Highlight: **High Heat Transfer Efficiency Air Cooler, Copper Tube Material Air Cooler**

Product Description

Experience the Power of Pure
Refreshing Air with DaMai Air-Cooled Air Cooler

EVAPORATOR

DaMai Air-Cooled Air Cooler

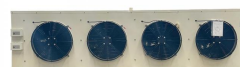

a perfect blend of performance, elegance, and innovation. Designed to deliver a powerful cooling experience with energy efficiency in mind, this advanced air cooler harnesses the natural force of wind and water to provide a refreshing breeze that revitalizes your space.

With its sleek design and whisper-quiet operation, the DaMai cooler is ideal for homes, offices, and industrial environments alike. Engineered with cutting-edge air-cooling technology, it ensures fast, even air distribution while maintaining eco-friendly performance and low operational costs.

Let DaMai transform your environment into a haven of comfort and freshness — naturally cool, effortlessly powerful.

Product Description:

This air-cooled evaporator is specifically crafted for cold storage purposes. It boasts a compact design, effective heat exchange capabilities, and simple installation. Tailored for medium to low-temperature cold chambers, it delivers consistent and even cooling, guaranteeing ideal storage environments for perishable items.

Features:

High-efficiency aluminum fins and copper tubes for enhanced heat transfer - The air conditioner features high-efficiency aluminum fins and copper tubes that improve heat transfer, ensuring optimal performance.

High-performance external rotor fans with low noise and strong airflow - Equipped with high-performance external rotor fans, this air conditioner delivers strong airflow while minimizing noise levels for a more pleasant environment.

Powder-coated or stainless steel casing for corrosion resistance and durability - The unit offers a choice of a powder-coated or stainless steel casing, providing excellent resistance to corrosion and ensuring long-lasting durability.

Built-in electric defrosting system (optional) - For added convenience, the air conditioner can be equipped with an optional built-in electric defrosting system.

Customizable coil size, fan configuration, and voltage options - Users can customize the coil size, fan configuration, and voltage options according to their specific requirements, offering greater flexibility.

Easy maintenance and long service life - Designed for easy maintenance and boasting a long service life, this air conditioner provides both convenience and reliability for users.

Zhejiang Damai Cold Chain Equipment Co.,Ltd.

Zhejiang Damai Cold Chain Equipment Co., Ltd., is a leading manufacturer of refrigeration units, like condensers, air coolers, all kinds of units, and solution provider for cold storage rooms.

We, Damai Cold Chain, are located in Zhejiang Province China, already supplied our machines, designing and installation services to more than 80 countries and districts clients in the world.

At present, we can supply clients for Bitzer, Copeland, Danfoss, Carrier, Damai and other brands compressors and refrigeration units, we also can supply clients for OEM & ODM service.

We want to establish a bright future with potential partners together!

Technical Parameters:

Series	DD/DJ/DL
Fan Type	Axial Fan
Tube Material	Copper
Expansion Valve	Danfoss
Casing Material	Galvanized Steel
Key Words	Air Cooler
Product Type	Air Cooler
Material Of Fin	Material Of Fin
Type	Air Cooler
Fan Qty	1~4

Applications:

Food cold storage facilities are essential for preserving various types of perishable items such as meat, seafood, vegetables, and dairy products. These storage units are designed to maintain specific temperature and humidity levels to ensure the freshness and quality of the stored goods.

Pharmaceutical storage rooms are specialized facilities used for storing drugs, medicines, and pharmaceutical products that require strict temperature control and monitoring. These rooms are equipped with precise temperature regulation systems to prevent degradation of sensitive medications.

Cold chain logistics centers play a vital role in the storage and distribution of temperature-sensitive goods. These facilities are responsible for maintaining the integrity of products throughout the entire supply chain, from manufacturing to delivery, to ensure they reach consumers in optimal condition.

Supermarket refrigerated rooms are dedicated spaces within grocery stores where perishable items like dairy products, fresh produce, and frozen goods are kept at the appropriate temperature to prevent spoilage. These rooms help ensure that customers have access to fresh and safe food items.

Agricultural produce preservation involves the use of cold storage techniques to extend the shelf life of fruits, vegetables, and other farm produce. By storing these items in controlled environments with low temperatures and proper ventilation, farmers can reduce waste and maintain the quality of their harvests for longer periods.

Customization:

Cold Room Evaporators are essential components in refrigeration systems, providing efficient cooling for various applications. Our DM Cold Room Evaporator, model number DM-COOLER-DD/DJ/DL, is designed for optimal performance. Originating from China, our evaporators are CE and ISO certified, ensuring high quality and reliability. With a minimum order quantity of 1 and a price range from 1000 to 100000, we offer customization packaging details and a delivery time of 20 days. We accept payment terms of TT and L/C, and our supply ability is 300000 units per year. The noise level of our Air Cooler evaporators is low, making them suitable for various environments. Equipped with Slotted Fin and Axial Fan, our evaporators feature Electric Defrosting for efficient operation. Choose DM for Cool Room Evaporators that meet your cooling needs.

Support and Services:

The Product Technical Support and Services for the Cold Room Evaporator include: -----

- Installation guidance and support
- Troubleshooting assistance for any operational issues
- Regular maintenance recommendations
- Repair services for any malfunctions
- Product training for proper usage and maintenance

FAQ:

Q: What is the brand name of the Cold Room Evaporator?

A: The brand name is DM.

Q: What are the available model numbers for the Cold Room Evaporator?

A: The available model numbers are DM-COOLER-DD, DM-COOLER-DJ, and DM-COOLER-DL.

Q: Where is the Cold Room Evaporator manufactured?

A: The Cold Room Evaporator is manufactured in China.

Q: What certifications does the Cold Room Evaporator have?

A: The Cold Room Evaporator is certified with CE and ISO.

Q: What is the minimum order quantity for the Cold Room Evaporator?
A: The minimum order quantity is 1 unit.
